Hossam Hamdy

FULL STACK ENGINEER (MERN)

ABOUT ME

Dynamic Full Stack Developer adept in MERN technologies with a proven record of accomplishment of delivering impactful projects for diverse businesses. Merging technical expertise with creative problem-solving to innovate seamless digital experiences.

EXPERIENCE

FULL STACK DEVELOPER

REVCA   *APRIL 2023 – PRESENT*

I developed a seamless RESTful API, integrated real-time messaging for engagement, and introduced automated tests for robust code coverage. Contributed to Apture, a versatile Computer Vision app, implementing user management via AWS Cognito and integrating with CVAT and Google Maps.

BACKEND DEVELOPER

AMERICAN ACADEMY   *OCT 2022 – DEC 2023*

Played a key role in architecting, coding, and optimizing the vital system for a reliable payment experience, crucial for platform success. Additionally, contributed to building a comprehensive accounting web app managing finances and generating insightful reports efficiently.

EDUCATION

DIPLOMA IN COMPUTER SCIENCE

CAIRO UNIVERSITY   *AUG 2020 – OCT 2022*

GPA: 3.56 / 4.00

PROJECTS

Muskan: Dental Care Ecosystem.

MedAssist: an ethical AI Engine dedicated to individual health.

Apture: a versatile Computer Vision application catering to EHS.

Rawaa: An online food ordering system.
